

RHONDOS Professional Services for Splunk IT Service Intelligence

RHONDOS

Benefits of Splunk IT Service Intelligence (ITSI)

90% Lower MTTR

95% Reduction in alert noise

60% Reduction in downtime

45% Reduction in total incidents with increased visibility 30 minutes in advance

Traditional IT monitoring is high on quantity, but low on quality.

Splunk ITSI is the opposite, providing maximum ROI when coupled with expert consultants to implement the appropriate alerts.

The RHONDOS ITSI Advantage

More than just ITSI for SAP data.
RHONDOS Splunk-certified ITSI consultants have:

10
years

supporting successful Splunk projects

+5
years

of proven ITSI experience

RHONDOS Professional Services for Splunk IT Service Intelligence

RHONDOS

Why Splunk ITSI?

Splunk ITSI is a powerful tool for turning data into action. RHONDOS will design visualizations of your data that are custom-made to suit your business needs.

Telecom Services

Hospital Diagnostic Flow

Critical Applications (Public Sector)

IT Operations (Corporate Systems)

RHONDOS

- Identifies where Splunk ITSI can be implemented
- Aligns your mission with a detailed roadmap
- Designs and deploys custom alerts for your data
